*Title* : "Application and Visualization of Data Structure"  
*Date of Event* : 18/07/2022  
*Speaker Expert* : Mr. Pankaj Wadhvani

**Summary:**

We have total number of 62 students and all of the got benefitted with this one week training.  
Feedback: 1. This Work is really good and very much useful to develop and teach data Structure and other technologies.

2. We are able to Share knowledge among ourselves.  
3. We need this type of real time training.  
Eminent resource persons Mr. Pankaj Wadhvani sir from real time application Development Company from Indore.  
We received good feedback and response for conducting this training in AIML.

  
Coordinator  
Mr. Jitendra Kulaste

## INDORE INSTITUTE OF SCIENCE AND TECHNOLOGY, INDORE

Approved by AICTE, New Delhi & Affiliated to RGPV, Bhopal

Training: - Application Visualization of Data Structure and

### COURSE OBJECTIVES:

- 1 To impart the basic concepts of data structures and algorithms
  - 2 To understand concepts about searching and sorting techniques
  - 3 To Understand basic concepts about stacks, queues, lists, trees and graphs
  - 4 To understanding about writing algorithms and step by step approach in solving problems with the
- 6 Help of fundamental data structures

### COURSE OUTCOMES:

- 1 Ability to analyze algorithms and algorithm correctness.
- 2 Ability to summarize searching and sorting techniques
- 3 Ability to describe stack, queue and linked list operation.
- 4 Ability to have knowledge of tree and graphs concepts.

### Contents: - Application and Visualization of Data Structure

In this training, you will learn about the most popular topics corresponding to data structures and algorithms through live animation. The data structure is the key component of Computer Science and is used in the areas of artificial intelligence, operating systems, graphics, etc. This course aims to turn complexity into simplicity via illustrations and live animation. Visualization of data structures is provided for the most popular topics, such as queue, stack, linked list, recursion, and recursive function, graphs, trees, heap data structure, sorting algorithms, searching algorithms, hash function, and hash table. This course is provided for anyone who is interested in data structure and algorithms. All sorting and searching algorithms are covered by the implementation. The main programming language is based on Python. However, very basic knowledge about programming skills is required, and this knowledge is only required for sorting and searching algorithms in which they are discussed with Python programming language. All lectures are discussed from scratch, and don't be afraid if you think your knowledge is not enough for this course. In fact, both implementation and illustrations are discussed in a simple manner. I hope you enjoy this course.

The most popular topics that are covered are:

1. Arrays
2. Queue
3. Stack
4. Linked List
5. Recursion
6. Graph Theory
7. Spanning Trees
8. Minimum Spanning Trees (Prim's and Kruskal's)
9. Graph Traversal (BFS and DFS)
10. Sorting Algorithms
11. Searching Algorithms
12. Heap Data Structure
13. Introduction to Trees
14. Binary Search Trees (BST)
15. Tree Traversal (Preorder, Inorder, Postorder)
16. The hash function and Hash Table

Department of Computer Science and Engineering

### Summary/Report for Expert Lecture on "Blockchain and its Implementation"

Its training is intended to provide opportunities for researchers and students to upgrade their knowledge in the area of Blockchain Technologies.

Considering the growing importance of Blockchain Technologies and its potential in different sectors, this six day training is planned and sessions would be delivered by experts from academia and industry

## Indore Institute of Science and Technology

Approved by AICTE, New Delhi & Affiliated to RGPV, Bhopal

### "Blockchain and its implementation"

#### Objectives and Course Outcomes

##### Course Description:

A blockchain is "a distributed database that maintains a continuously growing list of ordered records, called blocks." These blocks "are linked using cryptography. Each block contains a cryptographic hash of the previous block, a timestamp, and transaction data. Course Objectives:

- The objective of this webinar is to make it more understandable to the students, faculties and research scholars in the field of sentiment analysis using machine learning and deep learning approaches.

##### Course Outcomes:

On completion of this course, Students should be able to:

- Learn and understand the concepts of sentiment analysis.
- Learn different machine learning and deep learning approaches for sentiment analysis and also will learn to use different python packages.

*Faculty Coordinator* : Mr. Jitendra Kulaste  
*Date of Event* : 12-10-2022  
*Speaker/Expert* : Mr. Pankaj Wadhvani

#### Summary:

The Department of Information Technology organized SIG on Advanced Java. The event was taken by Mr. Pankaj Wadhvani. The event was started by making the participants aware of object-oriented programming concepts to make a revision of basic java. After that all the modules regarding advanced java such as multithreading, networking, RMI etc. were thoroughly discussed. The expert also gave detailed programming insights to students. Students also learned to apply and validate input in a java program. Identify and fix defects and common security issues in code. Document a Java program using Javadoc. Use a version control system to track source code in a project.

## "Training on Advance Java"

### Objectives and Outcomes of Activity

#### Learning Objectives

The objective of the training is to understand the basic theory underlying machine learning.

- To be able to formulate Advance Java concepts corresponding to different applications.
- To understand a range of Java Classes and packages along with their strengths and weaknesses.
- To be able to apply Advance Java programming skills to solve problems of moderate complexity.
- To apply the algorithms to a real-world problem, optimize the models learned and report on the expected accuracy that can be achieved by applying the models.

#### Course Outcomes

After completing this training, the student will be able to

- Appreciate the importance and capabilities of Java Language and its support for Multithreading, Networking, I/O and AWT.
- Read and make elementary modifications to Java programs that solve real-world problems.
- Document a Java program using Javadoc.
- Use a version control system to track source code in a project.
- Understand and implement basic concepts of object oriented programming.

## OBJECTIVES & OUTCOMES

### Objective:

The objective of this module to make students exercise the fundamentals of statistical analysis in R environment. They would be able to analysis data for the purpose of exploration using Descriptive and Inferential Statistics. Students will understand Probability and Sampling Distributions and learn the creative application of Linear Regression in multivariate context for predictive purpose.

### Outcome:

After the successful completion of this module, students will be able to:

- Install, Code and Use R Programming Language in R Studio IDE to perform basic tasks on Vectors, Matrices and Data frames.
- Describe key terminologies, concepts and techniques employed in Statistical Analysis.
- Define, Calculate, Implement Probability and Probability Distributions to solve a wide variety of problems.
- Conduct and Interpret a variety of Hypothesis Tests to aid Decision Making.
- Understand, Analyse, Interpret Correlation and Regression to analyse the underlying relationships between different variables

## RESOURCE PERSON PROFILE

Dr. Reshu Agarwal is an Associate Professor at IIMR. She has 18 years of rich experience in statistics and data science. Before joining IIMR, she was a faculty member in the School of Data Science and Forecasting (Devi Ahilya Vishwavidyalaya – DAVV, Indore), Department of Mathematics and Statistics (Acadia University, Nova Scotia, Canada) and Forestry and Ecology Division (Indian Institute of Remote Sensing – IIRS, Dehradun). Dr. Reshu is a former ISRO scientist and MPhil topper. Her PhD is based on statistical modelling using satellite data. She also held two postdoctoral fellowships in her credit (University of Iowa, USA and GGSIP university, Delhi). She is a winner of two best paper awards and published 27 research papers in peer reviewed national and international journals, conference proceedings, technical reports, and book chapters.

## EVENT SUMMARY

A Ten day "Training on R" has been organized by Mechanical engineering department, IIST in association with IIMR, indore from 12/12/2022 to 23/12/2022. The resource Person for the internship was Ms. Reshu Agrawal. The Training was organised for Final Year of the department. Total 85 students participated in the Programme. The session begins with the introductory session on R. Topics like GUI of R, Basic Introduction, Mathematical operations, Graph Plotting & Applications of R were discussed in details with hands on practice. The 10 days training ended with query solving by the expert. The vote of thanks has been given by faculty coordinator.

### LinkedIn

<https://www.linkedin.com/in/shivang-trivedi-704a4b127/>

## Executive Summary

Shivang is an Entrepreneur and AI Consultant. He has his experience in Deep Learning, Algorithm Design and Software Project Management. He has founded multiple companies in the AI space namely mEinstein LLC, Codenscious Technologies Pvt Ltd and CTL Indore. Working with very senior people in the industry, he has successfully designed, developed and deployed complex AI Solutions in various industries like healthcare, logistics and Retail. Shivang is a graduate of Indian Institute of Technology Roorkee and has a keen interest in Teaching AI to people.

## Key Expertise

- **Algorithm Designer**  
Developing scalable software systems for solving real world computing problems.
- **Deep Learning Researcher**  
Studying fundamental mathematical constructs behind deep neural networks for implementing in Computer Vision and Natural Language Processing.
- **Software Project Management**  
Agile Development Master having rich experience of Training, Building and Managing Agile Teams specialised in development of Enterprise Software Applications
- **AI Consultant**  
Architected & Delivered AI Powered Technology Solutions for complex Business Problems in Retail, Health Care, Quality Assurance and Logistics

DEPARTMENT OF  
INFORMATION TECH.

## Employment History

### Managing Director at Codenscious Technologies Pvt Ltd

2017 - Present

Codenscious Technologies has a rich experience of building AI Enabled Enterprise Grade Web and Mobile based software applications for industry specific needs. Offering Cutting Edge Technology, High Standards of Design and Coding practices and Project Management Practices, we are a team of highly skilled software engineers, data scientists and project managers who thrive to take on challenging technological endeavors.

- **AI and Deep Learning**

Artificial Intelligence, Machine Learning & Deep Learning being the core competency, the company has successfully completed numerous Computer Vision and NLP projects including an entire spectrum of Intelligent Image and Video Analytics and Cutting Edge Language Modelling Systems.

- **Mobile First AI**

Our continuously evolving Mobile Based Real Time Intelligent Video Analytics Technology requires no server side costly GPU computation and makes the entire system much more scalable and cost effective. This includes mobile based State of the Art Human Pose Estimation and Object Recognition Pipelines streaming only the required meta data for business logics.

- **AI on the EDGE**

On the Edge Computing Side, company have ready to use system infrastructure softwares ready for all major Edge platforms including NVEDIA Jetson, Intel Compute Sticks, Google Coral TPUs and we are continuously updated with the latest innovations.

### CTO at mEinstein LLC

2018 - 2020

It is a voice-controlled personal AI system that can take instructions, observe, advise, reason, plan, and act on your behalf. It acts like your shadow brain – your productive persona.

- **Personalised Artificial intelligence as unique as the User**

Understands you in natural language, analyses a vast amount of your personal data and provides informed decisions and outcomes while continuously learning about you.

- **Pattern recognition, Inferences, Predictions, Advices and Actions**

mE learns without being intrusive or obnoxious. If you like weekend golf, mE will take note of that preference and not send a service provider to fix your house during your round.

- **Learning and Improving every day**

mE is always learning and growing. The more you interact with mE, the more it will become your true shadow brain.

### Director of Education, CTL Indore

2017 - 2019

At CTL we find and train through a strict selection process the Real CS Geeks who are willing to pursue Artificial Intelligence as a career option not just because of a high package but because of the brute

DEPARTMENT OF  
INFORMATION TECH.

passion of problem solving building technology.

We look for people who want to become very competitive programmers and are willing to take on the quest of learning techniques of solving challenging problems in Computer Science, understand the Mathematics of Intelligence and work with us as Deep Learning Engineers.

## Top Projects

- **Helping Physiotherapists better Diagnose Musculoskeletal Disorders with Real Time Human Pose Estimation and Fuzzy Logic**

Enhancing the performance and processing speed by 120 times of a Cloud Based AI Solution of a Med-Tech Corp for diagnosis of musculoskeletal disorders optimizing Fuzzy Logic and Deep Learning based Real Time Human Pose Estimation on an IOS Device, saving \$1.5M per annum on scalability of 100,000 users.

- **Smart Camera System for Cargo Theft Security**

Smart Camera System for cargo theft security in trucks while transportation for Leading logistics company by optimizing single shot object detection convolutional neural network architectures on Nvidia Jetson Nano.

- **AI in Retail Analytics**

AI Scalable Video Analytics Technology for Smart CCTV systems for customer behaviour analysis, pre-sales-analytics, store management and security in retail.

## Recommendations

*"Shivang is a problem solver and has deep understanding of algorithms. He can build sound programming logic to solve real world problems. His sessions were very well received particularly his authority in the image recognition and pose detection was admired. He has built models that creatively tracks human poses. During the interactions, found him to be generative in solution development and expressing in a convincing manner. He is a quick learner and hence can flex in the newer domains too and can quickly provide remarkable results. He appears to have a knack in detailing pattern recognition and machine learning model intricacies in a easily understandable manner which engages audience in the training."*

- Mouly BC

Senior Director & Head of Learning and Development at Cyient Ltd

*"I was on the hunt to find a "superstar" in the field of ML and AI with a deep management background in finance and operations from a top notch school to embark on a very sophisticated project. It took me 6 months to find Shivang but it was worth the wait. Under his guidance and leadership we have created something that is absolutely groundbreaking. If you are looking for someone whom you can fully trust, is reliable, honest, self-starter, true to his word and most importantly capable - SHIVANG IS YOUR GO-TO GUY"*

• Prithwi Thakuria

Partner & Global Leader, Services for Data Platforms at IBM

#### Summary/Report for Training on "AI Bases Product Development"

*Title* : AI Based Product Development  
*Date of Event* : 16/12/2022 to 22/12/2022  
*Trainer* : Mr. Shivang Trivedi  
*Coordinator* : Ms. Shruti Sharma

#### Summary:

Information Technology department organized a training cum certification program on "AI Based Product Development" for 42 hours. The Training has been taken by Mr. Shivang Trivedi. He gave training on Machine Learning and Deep Learning techniques from scratch and he explains so many important concepts of EDA, PCA, basic models from training to testing the entire dataset. The technology is very demanding and has a great potential to accelerate the career of students. The main purpose of this training was to enable students to get detailed insights of AI with hands-on to some models. This Training was very beneficial for students looking towards the industry point of view and to make decision about their career prospect in AI product development. So that we cover the main tagline of our institute that is employability quotient and holistic development of students this kind of training proves that we work for the development of students to make industry ready.

INFORMATION TECH.

### “AI Based Product Development” Objectives and Course Outcomes

#### Learning Objectives

The objective of the training is

- To understand the applications and demand of AI based projects.
- To be able to create/understand the code of python programming languages.
- To understand the technical knowledge of Data Science and Machine Learning models.
- To be able to enhance the competency level of students as per the industry requirements.

#### Course Outcomes

After completing this training, the student will be able to

- Appreciate the importance of AI in various domains.
- Apply competency towards the development of machine learning models.
- Understand a very broad and collective knowledge of applying different datasets from preprocessing to training and testing the models
- Apply the knowledge of python to develop ML models.

## 30 hrs Training Program On "DATA SCIENCE USING SPSS SOFTWARE"

Under the SIG

Computational Numerical Statistics

From 2<sup>nd</sup> January 2023

### ABOUT THE TRAINING PROGRAMME

This course aims to equip learners with ability of independently carrying out in-depth data analysis with professional confidence and accuracy. It will specifically help those looking to derive business insights, understand consumer behaviour, develop objective plans for new ventures, brand study, or write a scholarly articles in high impact journals and develop high quality thesis/project work.

A good knowledge of quantitative data analysis is a sine qua none for progress in academic and corporate world. Keeping this in mind this course has been designed in such way that students, researchers, teachers and corporate professionals who want to equip themselves with sound skills of data analysis and wish to progress with this skill can learn it in in-depth and interesting manner using IBM SPSS Statistics.

The focus of current training program will be to help participants learn statistical skills through exploring SPSS and its different options. The focus will be to develop practical skills of analyzing data, developing an independent capacity to accurately decide what statistical tests will be appropriate with a particular kind of research objective. The program will also cover how to write the obtained output from SPSS in APA format.

The training on "Application of Data science for chemical Engineers through SPSS software" will give exposure of SPSS software to 4<sup>th</sup>yr students under the SIG named **Computational Numerical Statistics**. It will give expertise on process simulators used in Chemical industries which covers wide spectrum of industries like Oil & Gas Production, Chemical, Nuclear Fuel Processing, Petroleum Refining, Gas Supply, Electricity Generation, Steel, Water & Sewerage, Food & Dairy Industry. The training focuses on more practical industrial problems based on Heat Transfer, Fluid Mechanics, Chemical Engineering Thermodynamics, Mass Transfer and Chemical Reaction Engineering.

### ABOUT THE INSTITUTE

Indore Institute of Science and Technology, Indore (IIST), Indore Institute of Science & Technology (IIST) established in the year 2003, is amongst the Top 5 Engineering Colleges of Indore. The Institute is approved by AICTE, New Delhi and affiliated to RGPV Bhopal offering Bachelor's and Master's Degree in Engineering. At IIST, we are committed to enhance the employability Quotient of the Students along with Holistic Development. Institute has tie-up with premier IITs (Delhi & Bombay) for Academic Excellence in the

# INDORE INSTITUTE OF SCIENCE & TECHNOLOGY

Approved by AICTE, New Delhi, Affiliated to RGPV, Bhopal, Recognized by UGC under Section 2(f)

areas of Virtual Labs, e-Yantra, etc. We have well-qualified faculty team, mostly with Ph.D degree in the latest technological domains. Our Technology enabled Flipped Classroom pedagogy enhances the student engagement in the classroom and make them focused on the practical aspects of the subject. The institute has created, dedicated Special Interest Groups (SIGs) to enable the faculty and staff to work on the latest technologies in the newly established State of the art Lab Infrastructure for Internet of Things (IoT), Apple iOS application development, Cloud Computing, Data Analytics, Artificial Intelligence, Robotics, Aero Modelling, Waste Water Treatment, Water Harvesting, etc.

## Learning objectives of Training Programme

- To independently analyze and treat data, plan and carry out new research work based on your research interest
- To equip themselves with sound skills of data analysis
- To knowledge of quantitative data analysis is a sine qua none for progress in academic and corporate world

## Outcomes of Training Programme:

- Analyse any type of numerical data using SPSS with confidence
- Independently plan your research study from scratch.
- Understand the research design and results presented in high quality journal articles
- Do data analysis accurately and present the results in standard format.

## COURSE CONTENT FOR SPSS

### Introduction

- Introduction to SPSS
- Data analysis with SPSS: general aspects, workflow, critical issues
- SPSS: general description, functions, menus, commands
- SPSS file management
- A brief theoretical recap of the statistical analysis tools and techniques

### Input and data cleaning

- Defining variables
- Manual input of data
- Automated input of data and file import
- Data cleaning

### Data manipulation

- Data Transformations
- Data file management
- Syntax files and scripts
- Output management

### Descriptive analysis of data

- Frequencies

- Descriptives
- Explore
- Crosstabs

#### Statistical tests

- Means
- T-test
- One-way ANOVA
- Non parametric tests
- Normality tests

#### Correlation and regression

- Linear correlation and regression
- Multiple regression (linear)

#### Multivariate analysis

- Factor analysis
- Cluster analysis

#### Final test

## PPlot

Event Summary

Department of Chemical Engineering of IIST Indore has successfully organized the certification course on the applications of data Science for chemical engineers through SPSS. Students have learnt about the coding performed through the software SPSS that are learnt in the Petrochemical Industries as well as in Chemical Industry. A total of around 30-35 students were indulged in the certification. Ms. Palak Shah have evidently shared their experiences with the students and taught them how to solve the chemical engineering problems using SPSS software and get the appropriate results.

### Certificate Course on Prestressed Concrete Structures

#### Programme Objectives

The program prepares students for professional, teaching and research careers. Emphasis is on the acquisition of knowledge concerning to analysis, design, construction, maintenance, management and performance of structural components and structures with due consideration to public governing policies and guidelines.

#### Objectives of Course-

Student will be able to:

1. Understand various types prestressed structural elements.
2. Analyze and determine loads and stresses in PSC Members
3. Apply knowledge of analytical solution in problem solving
4. Design and detailing of Prestressed structural elements.

#### Course Content

S.No.	Topic
1	History of prestressed concrete
2	Practice and use of standard materials
3	Methods of prestressing concrete structures
4	Understanding of the behavior of prestressed concrete bonded and unbonded components for flexure and shear
5	Prestressing is introduced as another load on the structure ("Equivalent Load Concept")

## Indore Institute of Science and Technology

Approved by AICTE, New Delhi & Affiliated to RGPV, Bhopal

### Learning Outcomes

After successful completion of this course the student will be able to:

1. Identify various prestressed structural elements.
2. Apply analytical skills to evaluate performance of prestressed structural elements
3. Analyze prestressed structural elements with various considerations.
4. Design and detail prestressed structural elements for various loading conditions.

Shear force

The necessity of high strength concrete in prestressed concrete is due to\*

1 point

Shear and bonding  
Loading and Unloading  
Cracking  
Bending

The length of the prestressed tendon between the end of the member and the point where the steel attains its stress is called\*

1 point

Anchorage  
De bonding  
Cracking load  
Transmission length

In circular prestressing members the tendons are supplied in the form of\*

1 point

Cables  
Bars  
Wires  
Rings

The prestressed concrete structures are considered as\*

1 point

Economical structures  
Uneconomical structures  
Tensile structures  
Loading structures

The prestressed concrete involves problem like \_\_\_\_\_\*

1 point

Architectural and construction  
Financial and land  
Placing of material  
Tensioning devices

Which of the following is the Indian Code used for high strength concrete mixes?\*

1 point

### ADVANCE JAVA

#### Objectives and Course Outcomes:-

##### > Learning Objectives

##### Course Objectives

Upon completion of this course, students will be able to do the following:

- To learn JavaScript for creating dynamic websites.
- To acquire knowledge on creation of software components using JAVA Beans.
- To learn Server-Side Programming using Servlets and Java Server Pages.
- To learn the creation of pure Dynamic Web Application using JDBC

##### > Course Outcomes

After completing this training, the student will be able to-

- Learn the Internet Programming, using Java Applets
- Create a full set of UI widgets and other components, including windows, menus, buttons, checkboxes, text fields, scrollbars and scrolling lists, using Abstract Windowing Toolkit (AWT) & Swings
- Apply event handling on AWT and Swing components.
- Learn to access database through Java programs, using Java Data Base Connectivity (JDBC)
- Create dynamic web pages, using Servlets and JSP..

### Department of Information Technology

Summary/Report for Training

on

### "ADVANCE JAVA"

Title	Advance Java
Date of Event	20 Feb-28 Mar 2023
Trainer	Mr. Pankaj Wadhvani
Coordinator	Mrs. Praveena Joshi

#### Summary

Information Technology department organized training program on "Advance Java". The Training has been taken by Mr. Pankaj Wadhvani. He gave training on Advance Java and web Application. So students can Design and develop Web applications and make a reusable software component, using Java Bean. The technology is very demanding and has a great potential to accelerate the career of students. The main purpose of this training was to enable students to get detailed insights of JAVA with hands-on. This Training was very beneficial for students looking towards the industry point of view and to make decision about their career prospect.

**Drone Development**  
**FOR SESSION JAN-JUNE 2023**

Course Details	
Course Name	Drone Development
Eligible Students for course	All Engineering branches / All year
Date & Time	March 13 to 17, 2023 and 10:00 AM onwards
Mode of Internship Cum	Offline
Software download link	NA
Hardware Required	Drone development related components
If applicable play store link	NA
Pre-requisites	No Pre-requisites
Setup Required	Computer system for computation
Assessment of Course	In the end Quiz test will be conducted
Resource Person	Mr.Abhay singh Lodhi

**Course Objective**

Quadcopter (from Quad "four" and Copter "helicopter") is an aerial robot combining a simple propeller mechanism with powerful electronics for limitless real-world applications. It is an embedded system comprising of microcontrollers, sensors, flight gear and other integrated components.

This workshop helps participants to develop a Quadcopter project from scratch while understanding the various engineering concepts in making a working Unmanned Aerial Vehicle. Developing a Quadcopter provides the right kind of hands-on application that an Engineering student needs!

**Course Outline**

- Build and Test your own Quadcopter
- Introduction to design and development of Multi Rotor Vehicles
- Understanding the Electronics circuitry involved in Quadrotor
- Learn about Stability and Control of Drones
- Learn about the working of sensors like Accelerometer and Gyroscopes
- Hands-on experience on DC motors, ESCs (Electronic Speed Controllers) and Quadcopter Embedded control board

**Course Outcome**

**INDORE INSTITUTE OF SCIENCE TECHNOLOGY, INDORE  
DEPARTMENT OF ELECTRONICS COMMUNICATION ENGINEERING**

Functioning of a Quadcopter  
 Understanding the Electronics involved in Quadrotor  
 Sensors, navigation and Telemetry  
 Flight Trails and error rectification  
 Hands-on experience with DC motors, electronic speed controllers, GPS and Telemetry

Course Content

## Certificate Course on "Drone Development"

Department of Electronics and Communication Engineering Successfully complete Certificate course on Drone Development from 13th to 17<sup>th</sup> March, 2023 and 80 students successfully participate in the Certification programme. This programme introduces students to the amazing world of Drone system and its fascinating applications. Through this programme, students can build an Drone system device that can form the basis for smart buildings, smart irrigation systems, smart water monitoring, They can also learn how to write programs, and relate the sensed data, and use Cloud computing basis concepts with system.

### APPROVAL LETTER

Date: 01/05/2023

To,

The Principal  
Indore Institute of Science and Technology  
Indore

Respected sir,

Department is going to organize a Certificate Course on Advanced Solid Works from 15/05/23 – 19/05/23 at IGTR MSME Training Centre Indore for our undergraduate students, so that they have hands-on knowledge on Solid Works. The proposal for the program is attached with this application. We also request you to kindly provide necessary funding & facilities to make this program successful.

Thanking You

Yours faithfully

Mr. Navdeep Jain  
Assistant Professor  
Mechanical Engineering Department  
IIST Indore

Course Content	
Date	Topics
15/05/2023	INTRODUCTION TO CAD, APPLICATION OF CAD, INTRODUCTION TO SOLIDWORKS SOLIDWORKS GUI, DIFFERENCE BETWEEN CAD,CAM & CAE
16/05/2023	SKETCHING MODE- SKETCH ENTITIES, SKETCH RELATION, SKETCH DIMENSIONS & SKETCH TOOLS
17/05/2023	INTRODUCTION TO PART MODELLING-CREATING EXTRUDE, REVOLVE, SWEEP & LOFT FEATURES, CREATING PART MODELLING FEATURES
18/05/2023	ASSEMBLY MODELLING-COMMANDS ON ASSEMBLY MODELLING, MECHANISMS INSERTING AND APPLY STANDARD MATES
19/05/2023	DRAFTING & DRAWING- ANGLE OF VIEWS, DRAWING AN ASSEMBLY ASSIGNMENT

Opposite Indian Institute of Management, Rau - Pithampur Rd, Rau, Indore, M.P. 453331

Toll Free: 1800 103 3069

### OBJECTIVES & OUTCOMES

#### Objectives:

SOLIDWORKS makes it quick and simple to share designs in 2D or 3D formats, meaning you can get instant feedback and continue to work on your designs. Designs can even be shared as 3D animations, which allows you to accurately demonstrate new products and features.

#### Outcomes:

- Demonstrate competency with multiple drawing and modification commands in SolidWorks.
- Create three-dimensional solid models.
- Create three-dimensional assemblies incorporating multiple solid models.
- Apply industry standards in the preparation of technical mechanical drawings.

## RESOURCE PERSON PROFILE

Mr. Prakhar Joshi

Mr. Prakhar Joshi is presently working as Design Head at IGTR, Indore. He is Mechanical Engineering graduated from Rajiv Gandhi Proudyogiki Vishwavidyalaya (RGPV), Bhopal, Madhya Pradesh. He has an experience over 5 years in the field of Design and Drafting. His expertise is in CAD software as well as in CAE Softwares. He is also Corporate trainer in the field of CAD.

## EVENT SUMMARY

A 5 day "Certificate Course on Advanced Solid Works" has been organized under Advanced Simulation & Computation SIG by Mechanical engineering department, IIST from 15/05/2022 to 19/05/2023 at IGTR, Indore. The resource Person for the Course was Mr. Prakhar Joshi. The participants were Second Year students fourth Semester Students of Mechanical Engineering Department. Total 31 students participated in the Programme. The session begins with the introductory session on CAD Software. The session ended with query solving by the expert.

The vote of thanks has been given by faculty coordinator.

## Approval Letter

Drone Club interested to organize Five Days Training cum workshop on Design and Development of Drone Prototype in association with ORC Electronics India Private Limited under AICTE SPICES Scheme and MoE's Innovation Cell (IIST IIC) from 15<sup>th</sup> May to 19<sup>th</sup> May 2023.

Kindly approve for organizing the Training cum workshop in the department.

Coordinator for the Event

1. Mr. Pranav Paranjpe (Assistant Professor, ECE)
2. Mr. Shravan Namdeo (Assistant Professor, ECE)

Enclose:

1. Proposal of Training cum workshop received from ORC Electronics India Private Limited
2. Budget and Requirement.

  
Coordinator Drone Club  
IIST, Indore

  
Principal  
Indore Institute of Science  
and Technology, I.

Date: 04/05/2023

### NOTE SHEET

**Training cum workshop on Design and Development of Drone  
Prototype and under AICTE SPICES Scheme in association with  
MoE's Innovation Cell (IIST IIC)**

### Budget

As per proposal received total cost for five days training cum workshop on Drone Development from ORC Electronics India Private Limited is 125000/- + GST (if applicable) plus Food and Accommodation of 2 Resource person from ORC Electronics India Private Limited.

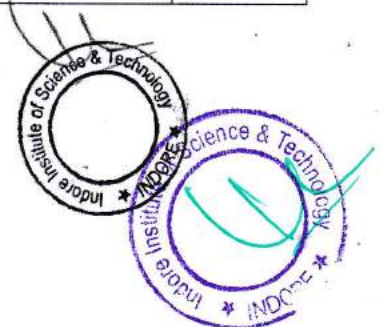

Payment Condition will be:

1. 50% Advance & 50% against training completion.

**Enclosed:** Detailed Proposal with Account Details

### Requirements from Admin

S. No.	Requirements	Particulars	Date	Time	Remark
<b>Felicitation</b>					
1.	Flower Bouquet or momento or planter	01	15/02/2023	8:45 AM	
<b>Food &amp; Refreshment</b>					
2.	Lunch for 2 Person	Regular	15/02/2023 to 19/02/2023	1:00 PM	
3.	Breakfast for 2 Person	Regular	15/02/2023 to 19/02/2023	9:00 AM	
4.	Dinner for 2 Person	Regular	15/02/2023 to 19/02/2023	8:00 PM	
<b>Infrastructure and IT Support</b>					
5.	White Board with Marker in Computer Lab A Block First floor MATLAB	-	15/02/2023 to 19/02/2023	Full day	

7.	Microphone and PA system	1			
8.	Slider/Pointer and HDMI to VGA converter cable	1			
9.	Computer Lab with 30 System (Computer Lab A Block First floor MATLAB) Operating System: Windows 7, 8 or 10 (No Linux based system) RAM: 2GB and above USB Port required for programming Additional power sockets for robots and laptops Computer with Administrator login Internet Access/Wi-Fi Access	30 System

**CERTIFICATE COURSE ON  
Design & Development of Drone Prototype  
FOR SESSION JAN-JUNE 2023**

Course Details	
Course Name	Design & Development of Drone Prototype
Eligible Students for course	All Engineering branches / All year
Date & Time	May 15 to 19 , 2023 and 09:30 AM onwards
Mode of Internship Cum Training	Offline
Software download link	NA
Hardware Required	Drone development related components
If applicable play store link	NA
Pre-requisties	No Pre-requisties
Setup Required	Computer system for computation
Assessment of Course	In the end Quiz test will be conducted
Resource Person	Mr. Abhinav singh Thakur

**Course Objective**  
 Quadcopter (from Quad "four" and Copter "helicopter") is an aerial robot combining a simple propeller mechanism with powerful electronics for limitless real-world applications. It is an embedded system comprising of microcontrollers, sensors, flight gear and other integrated components.

**Course Outline**

- Build and Test your own Quadcopter
- Introduction to design and development of Multi Rotor Vehicles
- Understanding the Electronics circuitry involved in Quadrotor
- Learn about Stability and Control of Drones
- Learn about the working of sensors like Accelerometer and Gyroscopes
- Hands-on experience on DC motors, ESCs (Electronic Speed Controllers) and Quadcopter Embedded control board

**Course Outcome**

**INDORE INSTITUTE OF SCIENCE TECHNOLOGY, INDORE  
DEPARTMENT OF ELECTRONICS COMMUNICATION ENGINEERING**

Functioning of a Quadcopter  
 Understanding the Electronics involved in Quadrotor  
 Sensors, navigation and Telemetry  
 Flight Trails and error rectification  
 Hands-on experience with DC motors, electronic speed controllers, GPS and Telemetry

Course Content		
Date	Topic	Resource Person
15,16-05-23	About the Course Introduction to Google Colab Introduction to UAVs, History, classifications Quadcopter Aerodynamics and Flight Mechanics	Mr. Pranav Paranjpe
17,18-05-23	GPS and Telemetry DC Motors, ESCs and Power Systems Mission Planner Software	Mr. Pranav Paranjpe
19-05-2023	Calibration and Testing of the developed Quadcopter Planning Flight Path	Mr. Pranav Paranjpe

## NOTICE

This is to inform you that Department of Electronics & Communication is going to organize Certificate Programme on **Design & Development Drone Prototype** conducted by IIST EC Department from 15<sup>th</sup> to 19<sup>th</sup> May, 2023. All the students of Different Engineering Branches will have to participate actively in this event so that you will get benefits from that event. The event will be held offline from 09:30AM to 3:30PM.

### Faculty Coordinators:

- a) Mr. Pranav Paranjpe
- b) Mr. Shravan Namdeo

So, I invite all the interested Students to attend/participate in the workshop and get the advantages.

## Certificate Course on "Drone Development"

Department of Electronics and Communication Engineering Successfully completed Certificate course on Design & Development of Drone Prototype from 15th to 19<sup>th</sup> May, 2023 and 55 students successfully participate in the Certification programme. This programme introduces students to the amazing world of Drone prototyping and its fascinating applications. Through this programme, students can build an Drone system device that can form the basis for smart agriculture, smart irrigation systems, smart water monitoring, They can also learn how to write programs, and relate the sensed data, and use Cloud computing basis concepts with system.
