2.5.2 - Mechanism to deal with internal examination related grievances is transparent, time- bound and efficient.

Indore Institute of Science and Technology (IIST) ,Indore has a comprehensive redressal mechanism in place for grievances related to internal examinations and marks. The redressal committee, comprising the principal, exam incharge, and the respective Head of Department (HoD), handles such concerns. Students can raise issues regarding the evaluation of their answer scripts or internal marks through this mechanism.

Transparency and Accessibility: Students can address concerns at three levels: faculty, HoD, and the redressal committee, ensuring that the process is open and approachable.

Prompt Action: Minor issues, such as unchecked questions or totalling errors, are promptly resolved directly with the faculty.

Internal Assessments: Continuous evaluation is conducted, with evaluated scripts being shared with students for clarification. Any discrepancies in marks are immediately addressed.

Lab Assessments: The evaluation process in lab assessments is transparent, carried out in the presence of students, which minimizes grievances.

Time-Bound Redressal: Immediate concerns are addressed by faculty. Any unresolved issues are escalated to the HoD or the redressal committee for further resolution.

University-Level Grievances: Issues at the university level are addressed within a month. Students also have the option of revaluation through the university's online portal.

IIST emphasizes open communication and a timely resolution process, ensuring a fair and transparent system for all students.

1. Introduction

Indore Institute of Science and Technology, Indore (IIST) has a robust redressal mechanism for addressing grievances related to internal examinations and marks. The redressal committee, composed of the principal, exam in-charge, and respective Heads of Department (HoDs), provides a platform for students to raise concerns regarding the evaluation of their answer scripts or internal marks.

Transparent and Accessible Process

Students can address their concerns at three levels: faculty, Head of the Department (HoD), and the redressal committee, ensuring that issues are escalated systematically and resolved efficiently.

Prompt Action

Minor issues, such as unchecked questions or totalling errors, are promptly resolved directly with the faculty.

Internal Assessments

Continuous evaluation is conducted, with evaluated scripts distributed to students for clarification. Any discrepancies are addressed and rectified immediately.

Lab Assessments

The evaluation process for lab assessments is transparent, conducted in the presence of students, which helps minimize potential grievances.

Time-bound Redressal

Faculty address immediate concerns directly. Unresolved issues are escalated to the HoD or the redressal committee for further action.

University-Level Grievances

These are addressed within a month, with revaluation options available online through the university portal.

IIST places a strong emphasis on open communication and timely resolution of issues, ensuring a fair and transparent examination process for all students.

3. Redressal Mechanism for Grievances

At IIST, grievances are minimized through the following measures:

1. Transparency and Clear Communication

   Transparency in the evaluation process and clear communication effectively reduce grievances.

2. Continuous Evaluation with Student Clarification

   Internal assessments involve continuous evaluation, and evaluated scripts are distributed to students for clarification. Any discrepancies are immediately addressed and rectified.

3. Transparent Lab Assessments

   Lab assessments follow a transparent process, with evaluations conducted in the presence of students, minimizing potential grievances.

4. Display of Assessment Marks

   All assessment marks are displayed on the Institute's notice board, ensuring transparency and reducing misunderstandings.

These measures contribute to a fair and transparent assessment process, helping to address grievances efficiently.

Wed, Dec 6, 2023 at 4:28 PM

Respected Sir,

I hope this email finds you well. I am writing to request a rescheduling exam of IV (Ex), V, VI (Ex) and VII semester students which is currently scheduled between 16 to 26 Dec, 2023. Unfortunately, an unexpected clash has arisen with a Smart India Hackathon (SIH) event in which 9 teams (7 selected and 2 waitlist) from our college has been selected to participate in Grand Finale of the 6th edition of the Smart India Hackathon (SIH) that is going to be organized from the 19th to 23rd December 2023. Students of II, III and IV year are members of shortlisted teams. And as students are required to report to Nodal Centers that are very far away from Indore so a buffer is needed so that they can report for the grand finale on stated dates.

It is our privilege to inform you that in the previous editions of Smart India Hackathons (SIH) also our students marked their remarkable presence in Smart India Hackathon. In SIH 2020, 3 of our teams got shortlisted and 2 teams won the Grand Finale. In SIH 2022, 6 of the teams from our college got shortlisted and 2 teams won the Grand Finale. Sir this time also 7 teams are under the select category and 2 teams are under the waitlist category. Sir, during the SIH 2023 grand finale time students are having university examinations. Sir in this regard we request you to kindly reschedule the exams that are scheduled during the stated period so that our students can be a part of the grand finale. As we all know, hackathons are intensive events where participants collaborate on innovative projects within a limited timeframe. This opportunity is crucial for students' personal and professional growth as it allows students to apply the skills and knowledge that they have gained during their studies. Participating in this hackathon aligns perfectly with their career goals and would greatly contribute to their development.

Sir, we all believe that such conditions should not be an obstacle to the nation's youth who have worked tirelessly to achieve the Smart India Hackathon Finale. As a result of the above, please reschedule exams/evaluations so that the teams can participate in the finals. Sir in this regard a letter has been issued from AICTE for rescheduling of exams and is attached here with this mail for your reference.

I would be more than willing to provide any additional information or documentation regarding our students' participation in the hackathon if needed.

Thanking you in anticipation,

with warm regard,

Principal

Q 5.

→ Main Memory

Main memory is the memory storage area where we can store the data permanently. The CPU is connected to the main memory by system buses.

Main memory is used for different types of operations such as

→ data searching
→ data insertion
→ data extraction

A "path-vector routing protocol"
is a network routing protocol
which maintains the path
information that gets updated
dynamically. updates that have
looped through the network
and returned to the same
node as are easily detected
and discarded. This algo is
sometimes used in "Bellman-
forward routing algo" to avoid
"count to infinity" problems
