Webinar on "Proteus VSM Demo Session"

Department of Electronics and Telecommunication IIST Indore organized a webinar on **"Proteus VSM Demo Session"** on 09/02/2024. Mr. Tilokesh Mallick (Chief Technology Officer, Cybermotion Technologies) was the resource person of the program.

Ms. Sneha Nagar (Coordinator of Event) conducted the program.

A brief Introduction of Mr. Tilokesh Mallick was given by Ms. Sneha Nagar. Mr. Tilokesh Mallick (Chief Technology Officer, Cybermotion Technologies) and the Team delivered the lecture on **"Proteus VSM Demo Session"**. He discussed the Simulators available in Proteus and the PCB designing process in it. The program was followed by the speech of Dr Ankit Saxena (HoD, EC Dept).

A vote of Thanks was given by Ms. Sneha Nagar. In this program About 12 Faculty members were present. The name of the participants is as follows:

1. Dr. Keshav Patidar
2. Dr. Ankit Saxena

Webinar on "Proteus VSM Software Demo Session"

Date: 09/02/24 **Time:** 2:00 P.M **Location:** Zoom(Online)

Agenda:

1. Introduction to Proteus Software
2. Features and Capabilities
3. Demonstration of Key Functionalities
4. Questions and Answers
5. Next Steps and Action Items

Meeting Summary:

1. **Opening Remarks:**
   - The meeting was called to order at 2:00 A.M by the Cybermotion team.
   - Welcome and introductions were made for all attendees.
2. **Introduction to Proteus Software:**
   - Mr.Tilokesh provided an overview of Proteus Software, emphasizing its significance in industry/education.
3. **Features and Capabilities:**
   - Navya from the cybermotion team highlighted key features and capabilities of Proteus Software, including PCB Design, Simulation & other capabilities.
4. **Demonstration of Key Functionalities:**
   - A live demonstration was conducted by Cybermotion Team, showcasing essential functionalities such as Simulation & interfacing of different microcontrollers with various components.
   - Attendees were encouraged to ask questions during the demonstration.
5. **Questions and Answers:**
   - Attendees posed questions regarding various aspects of the software.
   - The Cybermotion Team addressed each question and provided clarification as needed.
6. **Next Steps and Action Items:**
   - We outlined the next steps, including details about the trial, implementation, or further discussions.
   - Action items were assigned for follow-up.
7. **Closing Remarks:**
   - Dr.Ankit Saxena thanked all attendees for their participation and valuable contributions.

FDP on "Circuit Design, Simulation & Hands-on Practice"

Department of Electronics and Telecommunication IIST Indore organized a FDP on the topic **"Circuit Design, Simulation & Hands-on Practice"** in association with Cybermotion Technology on date 09/03/2024. Mr. Tilokesh Mallick(Chief Technology Officer, Cybermotion Technologies) was the resource person of the program.

MS. Sneha Nagar (Coordinator of Event) conducted the program.

A brief Introduction of Mr. Tilokesh was given by Ms. Sneha Nagar. Mr. Tilokesh Mallick(Chief Technology Officer, Cybermotion Technologies) & Team delivered the Training on Circuit Design and Simulation on Proteus Software. The team Discussed circuit designing with arduino and R-pi models and also designed Printed Circuit Board (PCB) and 3D Visualizer of the Circuit.

Vote of Thanks was given by Ms. Sneha Nagar. In this program About 20 Faculty members were present. Name of the participants are as follows:

1. Dr. Keshav Patidar

IIT Bombay e-yantra

Respected Sir/Madam,

e-Yantra is well known for teaching Embedded Systems and Robotics through workshops and competitions. We launched our Lab-in-a-Box Resources Website previous year in order to inspire and empower students of eLSI colleges, making embedded systems more accessible and exciting than ever.

We are organising a three-week hackathon aimed at automating aspects of the e-Yantra lab setup. The hackathon presents an excellent opportunity for your students to apply their skills and knowledge in robotics and embedded systems to solve real-world challenges.

Teams composed of students and teachers from a college will have the chance to collaborate, innovate, and develop projects that automate certain processes within your e-Yantra lab.

Here's what the college teams need to do for the hackathon:

1. Identify an area within your e-Yantra Lab that can be automated.
2. Formulate this as your problem statement and commence building your project by making use of the components available in the Lab.
3. Submit the video link demonstrating the implementation of your project **before 16th March 2024.**

The overarching theme of this hackathon is ***"Automate Your e-Yantra Lab"*** and the deadline for project submissions is **16th March 2024, 11:59 PM.**

Requirements:

1. ***"Automate Your e-Yantra Lab"*** can simply involve controlling the electrical appliances in your e-Yantra Lab to switch on or off based on the presence of someone. This serves as an example problem statement; you are required to add your own innovation and creativity to make your project stand out.
2. The project can be a prototype, but it must be usable in your e-Yantra lab.
3. **It should be a mandatory hardware project.**
4. Team can design an app/web application for any project dependencies (like user interaction, view statistical information) - this is optional.

Project submissions must be made by the college's teacher coordinator by filling google form [Google Form LINK] with the **video link and project directory zip file drive link.** Refer this link for instruction of recording video.

Respected Sir/Madam,

Greetings from e-Yantra!

Thank you for participating in the eLSI Hackathon: Automate your lab. Since this hackathon, teachers and students from eLSI colleges have started automating their labs and creating innovative projects. We have created a Lab-in-a-Box Resources Website where we have curated various experiments for the components present in your e-Yantra labs: https://elsi.e-yantra.org/lab-in-a-box-resources, making embedded systems more accessible and exciting than ever.

If you create any extra experiments not present on the website or if you create any projects using the experiments from the website, kindly send us the following to support@e-yantra.org:

1. Project directory
2. Video link of the project
3. Documents specifying the problem statement

Note: As promised, e-Yantra will be sending certificates and goodies to the team members.
For this purpose, please provide us with your details by filling out the following form: https://forms.gle/ebinFhtYaNRhcEtn9
The deadline for filling out the form is **22nd April 2024, 02:00 PM.** All the certificates and goodies will be sent at the college address.
If your team members have not received the email, kindly share it with them; otherwise, we won't be able to share the certificate and goodies to them after the deadline has passed.

We also value your feedback, so if you encounter any issues with the website, please don't hesitate to reach out to us at support@e-yantra.org.

e-Yantra Lab Setup Initiative - Hackathon

Each team creates a video titled Final Video for eLSI Hackathon 2023-24. This video comprises two parts: "Introduction Part" and "Demonstration Part".

IMPORTANT: The purpose of the "Introduction Part" is to introduce the team and for us to understand your teams' idea. The purpose of the "Demonstration Part" is for us to evaluate your solution.

Introduction Part

The video should start with a brief introduction. Please follow the instructions below:

- Opening screen of the video should show the College name and Team members' names and should remain for **3-5 seconds**.
- This should be followed by an introduction limited to a maximum of **TWO minutes**:
  - A short introduction by each team member where they can mention their names and department in the college. **(30 seconds)**
  - A maximum **30 seconds** introduction by the teacher team leader highlighting any interesting aspect of the project.
  - A maximum **60 seconds** description highlighting the benefits of having an eLSI lab in their college.

NOTE: Both video and audio should be clearly visible and audible for all the team members.

Demonstration part

- Try to keep the Demonstration part to be a one-shot continuous video.
- Team should add a countdown video at the start of the Demonstration Part. You may use the following youtube video: Countdown Video for countdown.
- During the Demonstration Part, you can add a pre-recorded voice-over/narration. This would ensure that you show your originality and highlight your hard-work and also the video does not sound bland.

A nice and clear narration would get your point across to the technical team.

This should be a natural dialogue flow which will ensure that the viewers are in sync with what is happening in the project video.

General Instructions:

- The team needs to ensure that the video flow and edit is crisp.

Respected Sir/Madam,

Greetings from e-Yantra!

We are pleased to announce the e-Yantra Lab Setup Initiative's lab ranking system and we're proud to announce that your college has been classified as a **Grade A institution**, ranking among the **top 17** colleges.

The ranking system will help us engage better with the labs set up under the e-Yantra Lab Setup initiative. The system is designed to encourage healthy competition among the labs and recognize the efforts of the labs that excel in different e-Yantra parameters. The parameters for ranking the labs are (Workshop | Principal's Meet | Regional Finals, e-Yantra Robotics Competition, e-Yantra Innovation Challenge, Task Based Training/ Embedded System MOOC, e-Yantra Farm Setup Initiative, e-Yantra Resource Development Center, e-Yantra Farm Setup Initiative).

To learn more about the lab ranking system, please visit this link. Additionally, we have also published the list of the current top 17 labs on the same website.

We believe that the ranking system will motivate the labs to improve their performance and provide better learning opportunities for the students. It will also help us identify the best practices and share them with other labs to promote excellence in the field of robotics and automation.

We look forward to your participation in the lab ranking system and wish you all the best for your efforts towards creating an excellent learning ecosystem for the students.

Please fill out the following form to help us understand your views: https://forms.gle/Vqj9QVaL4rVq8pb67

Feel free to contact us on support@e-yantra.org or call us at 022-2576-4986 in case of any query.

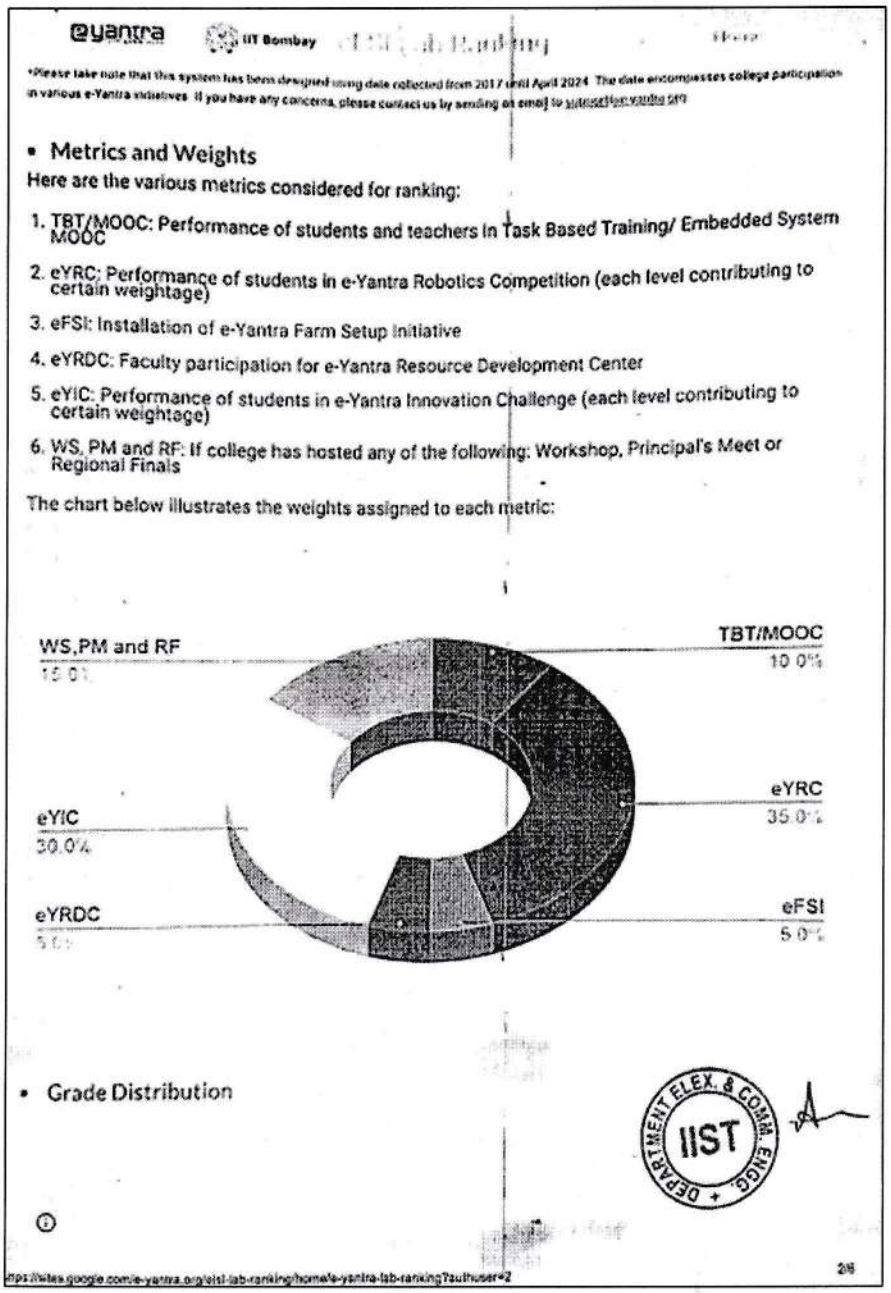
e-Yantra Lab Ranking

Why Lab Ranking?

- Measure as well as increase the "Josh" on e-Yantra Campuses.
- Colleges gain recognition as a leading engineering college with an official e-Yantra Lab ranking.
- Motivate labs to actively participate in e-Yantra initiatives and strive for continuous improvement.
- Foster a sense of community among e-Yantra labs, facilitating networking and collaboration opportunities.

By ranking the e-Yantra labs, it allows for benchmarking and sharing best practices among participating institutions, motivating them to strive for excellence and achieve higher levels of success in their endeavors.



@yantra IIT Bombay

*Please take note that this system has been designed using data collected from 2017 until April 2024. The data encompasses college participation in various e-Yantra initiatives. If you have any concerns, please contact us by sending an email to [illegible]

- Metrics and Weights

Here are the various metrics considered for ranking:

1. TBT/MOOC: Performance of students and teachers in Task Based Training/ Embedded System MOOC
2. eYRC: Performance of students in e-Yantra Robotics Competition (each level contributing to certain weightage)
3. eFSI: Installation of e-Yantra Farm Setup Initiative
4. eYRDC: Faculty participation for e-Yantra Resource Development Center
5. eYIC: Performance of students in e-Yantra Innovation Challenge (each level contributing to certain weightage)
6. WS, PM and RF: If college has hosted any of the following: Workshop, Principal's Meet or Regional Finals

The chart below illustrates the weights assigned to each metric:

Title : Workshop cum Certification Course on CCNA

Date of Event : **15/01/24 - 03/02/24**

Expert : Mr. Amit Kanungo

Coordinator : Ms **Rupal Yadav**

Summary:

The Information Technology department organized "Workshop cum Certification Course on CCNA". The expert focused on why it is important.The CCNA training session aimed to prepare participants for the Cisco Certified Network Associate certification exam. It covered key networking concepts such as network fundamentals, LAN switching technologies, routing technologies, WAN technologies, infrastructure services, and security fundamentals.

The training included hands-on labs and simulations to practice configuring and troubleshooting network devices, ensuring practical understanding of networking protocols and configurations. Participants engaged in discussions on real-world networking scenarios and best practices.

Seminar Content:

There are several ways to build a blockchain network. They can be public, private, permissioned, or built by a consortium.

Public blockchain networks

A public blockchain is one that anyone can join and participate in, such as Bitcoin. Drawbacks might include the substantial computational power that is required, little or no privacy for transactions, and weak security. These are important considerations for enterprise use cases of blockchain.

Private blockchain networks

A private blockchain network, similar to a public blockchain network, is a decentralized peer-to-peer network. However, one organization governs the network, controlling who is allowed to participate, run a consensus protocol and maintain the shared ledger. Depending on the use case, this can significantly boost trust and confidence between participants. A private blockchain can be run behind a corporate firewall and even be hosted on premises.

Permissioned blockchain networks

Businesses who set up a private blockchain will generally set up a permissioned blockchain network. It is important to note that public blockchain networks can also be permissioned. This places restrictions on who is allowed to participate in the network and in what transactions. Participants need to obtain an invitation or permission to join.

Consortium blockchains

Multiple organizations can share the responsibilities of maintaining a blockchain. These preselected organizations determine who submit transactions or access the data. A consortium blockchain is ideal for business when all participants need to be permissioned and have a shared responsibility for the blockchain.

Risk management systems for blockchain networks

When building an enterprise blockchain application, it's important to have a comprehensive security strategy that uses cybersecurity frameworks, assurance services, and best practices to reduce risks against attacks and fraud.

Webinar Content:

Himanshu Ramchandani is a distinguished AI trainer and founder of HemansAI based in Indore, known for his expertise in artificial intelligence and machine learning. With a passion for empowering learners and professionals, he has carved a niche for himself in the AI training industry. Himanshu combines in-depth technical knowledge with a practical approach, ensuring his students not only grasp theoretical concepts but also apply them effectively to solve real-world problems. His engaging teaching style and dedication to fostering innovation have made him a sought-after mentor for aspiring AI enthusiasts in Indore and beyond.

He provides training in various fields like Data and AI consultation, Development and AI leadership training.

The objective of the webinar was to make students aware about the latest trends in the field of artificial intelligence like generative AI and how to start using AI for different projects.

He will be discussing AI, GPT ,and how to use python for AI.He will be addressing various topics related to AI and how students can create their future using AI tools and techniques.

SUMMARY –

Swami Vivekananda Jayanti, celebrated on 12th Jan 2024 at Indore Institute of Science and Technology, was a day dedicated to honoring the teachings and philosophy of Swami Vivekananda. The event aimed to inspire and motivate students by reflecting on the life and principles of this great spiritual leader.

Event Highlights:

The day commenced with a soulful prayer to invoke Swami Vivekananda's blessings, setting the tone for the event. Student and faculty members gathered to pay homage to the iconic spiritual leader. One of the significant highlights of the event was the special online session conducted by Daji. Daji is a renowned spiritual leader and a prominent figure in promoting values and spirituality among the youth.

Session by Daji:

Daji's session began with a profound tribute to Swami Vivekananda and his teachings. He emphasized the relevance of Swamiji's philosophy in the contemporary world and its importance in shaping the character and values of the youth. The interactive session touched upon various aspects of Swami Vivekananda's life. Daji drew parallels between Swamiji's principles, and the challenges faced by today's youth, encouraging students to adopt a holistic approach to life. Daji shared insightful anecdotes and practical tips on how to integrate spirituality into daily life, emphasizing the importance of self-discipline, perseverance, and compassion. The session

Summary

Meditation, a practice rooted in ancient traditions, has gained significant attention in recent years for its potential benefits in various aspects of life, including academic performance and overall well-being.

On the Day -1 Shri Arun S Bhatnagar addressed the students. The academic journey often involves facing setbacks and challenges. Meditation helps students build mental resilience, enabling them to bounce back from failures, stay focused on goals, and maintain a positive mindset in the face of adversity. Incorporating meditation into the lives of students can be a transformative practice, offering a range of benefits that extend beyond the academic realm. By cultivating mindfulness, managing stress, and promoting overall well-being, meditation becomes a powerful tool for students to navigate the challenges of education and personal growth. As educational institutions increasingly recognize the importance of holistic development, integrating meditation practices into curricula and extracurricular activities could contribute to creating a more balanced and resilient student community.

The second day Dr. Aradhana Chouksey thew light on the topic "SILENCE is the language of Heart." Silence helps individuals with a strong sense of focus thinking which leads them to set better position and achieve life goals successfully. the importance of silence and self-discipline cannot be overstated in the pursuit of a well-rounded and fulfilling life. These qualities not only contribute to mental well-being but also serve as catalysts for personal and professional success. As individuals embrace the principles of peace and self-discipline, they lay the foundation for a resilient and purposeful existence, capable of overcoming challenges and realizing their fullest potential.

Third day's session is delivered by Dr. Yamini Karmarkar, Professor IIPS DAVV and certified trainer from Heartfulness organization on the subject "Evolution of Consciousness." Meditation is a potent tool for stress reduction, helping individuals manage the pressures of the workplace and

Event Report for Build With AI Workshop

Date: (19/04/2024)

Venue: Computer Center (A-Block), IIST Indore

Organized by: GDSC IIST in collaboration with GDG Indore

Speaker: Mr. Adeen Shukla

Special Guest: Mr. Udit Sen

Facilitator: Adityavardhan Jain

Introduction:

The event, "Build with AI" on topic "Unlocking Gemini's Multimodal Potential" provided an insightful overview of what Generative AI is, and how it can be implemented, and introduced the prerequisites and the trends. The event aimed to inspire and educate students about the opportunities and resources the world of Generative AI offers to aspiring developers.

Topics Covered:

- What is Gen AI?
- What is Vertex AI
- Gemini for Developers
- Google Cloud and APIs
- Using Gemini models
- Building a Chatbot using Mistral
- Integration with a software
- QNA

Speaker:

IQAC

GEEK FOR GEEK CLUB EVENT REPORT

Academic Year: 2023-24

Duration: March 2024

SUMMARY

An online coding event **"INTRO TO COMPETATIVE PROGRAMMING"** was conducted by the Geek For Geek IIST chapter on 09th March, 2024 (Saturday). 52 students participated in the event. It was a 2hr online session. The participants were introduced to the platform at first, about its interface and the rules and regulations that the platform imposes. The session was done to make participants aware about the coding and also about basic of programming.

After introducing the platform to the participants, the contest started and the participants were given a set of problems to be solved within the provided time span.

To,
The Honorable DG Sir,
Indore Institute of Science & Technology,
Indore,

Subject: Permission for Industrial Visit at IGTR MSME Training Center, Indore.

Respected Sir,

With due respect, as per the schedule we want to conduct an SIG on CNC Milling, Conventional Milling and EDM (Wire Cut) at IGTR Indore from 16/10/2023 to 22/10/2023 (1 Week). There will be total 44 students from 2nd and 3rd year from Mechanical Engineering. The SIG is aimed to enhance the practical skills & exposure, hands on practices on conventional and unconventional machines and gain the knowledge of latest industry oriented technology.

Kindly permission for the SIG and provides transport facility for the successful and exact to reach the training center at Indore.

FEES for SIG = 1000 INR/Student, Total 1000*44 = 44000 INR

Thanking You.

Event Summary

Department of Chemical Engineering has successfully conducted An expert lecture for third year and final year students on the topic **Advance technologies in waste water treatment** on 23/02/24 under IICHE. The expert was Mr. Faizan Mansuri, Territory Manager, Aquatech System Pvt. Ltd. and the overall coordinator was Ms. Farhin Khan. The expert highlighted the key processes and challenges, the importance of primary, secondary, and tertiary treatments in removing contaminants and protecting public health. Advanced technologies like membrane filtration and anaerobic digesters were discussed for their efficiency and energy recovery potential. Emerging issues such as pharmaceuticals and microplastics in wastewater were noted as growing concerns. Case studies demonstrated treatment applications in urban, industrial, and rural settings. The lecture emphasized future directions, including integrated water resource management, smart water networks, and the importance of public education in achieving sustainable wastewater management.

EVENT SUMMARY

An expert lecture on Transient Heat Transfer Phenomenon was organized by Department of Mechanical Engineering on 27/05/2024 11 am onwards. The topic for the expert lecture was Transient Heat transfer phenomenon. The expert for the session was Mr. Namit Shah, Mechanical Engineer, Manish Shah & Associates Indore.

The session started with the floral welcome of the guest. Dr. Keshav Patidar, Principal, IIST brief the students on the applications of heat transfer phenomenon in various sectors of Engineering. After this Mr. Shah started the session by introduction to heat, heat transfer, heat flux and heat transfer modes.

He thoroughly explained the Transient heat transfer phenomenon in various applications of Engineering. The mathematical aspects of heat transfer phenomenon and governing equations like Fouriers law, Stephen boltzman law and Newtons law. Each and every law was discussed and all the expressions were also derived. After this he went on to cover the engineering processes in which the heat transfer phenomenon occurs.

The students got benefited in the form of gaining the knowledge on Heat transfer phenomenon.

At the end of the session Mr. Shah answered all the queries asked by the students. The Vote of thanks was given by Mr. Vipin Patel.

Certificate Course on "Drone Development"

Department of Electronics and Communication Engineering Successfully complete Certificate course on Drone Development from 18th to 22nd March, 2024 and 80 students successfully participate in the Certification programme. This programme introduces students to the amazing world of Drone system and its fascinating applications. Through this programme, students can build an Drone system device that can form the basis for smart buildings, smart irrigation systems, smart water monitoring. They can also learn how to write programs, and relate the sensed data, and use Cloud computing basis concepts with system.

Course Objective

Quadcopter (from Quad "four" and Copter "helicopter") is an aerial robot combining a simple propeller mechanism with powerful electronics for limitless real-world applications. It is an embedded system comprising of microcontrollers, sensors, flight gear and other integrated components.

Course Outline

Build and Test your own Quadcopter
Introduction to design and development of Multi Rotor Vehicles
Understanding the Electronics circuitry involved in Quadrotor
Learn about Stability and Control of Drones
Learn about the working of sensors like Accelerometer and Gyroscopes
Hands-on experience on DC motors, ESCs (Electronic Speed Controllers) and Quadcopter Embedded control board
