1. Introduction to E-Resources at IIST Library

The Indore Institute of Science and Technology (IIST), Indore library offers a wide range of electronic resources to facilitate academic and research needs. These e-resources include e-journals, e-books, databases, and remote access facilities. These resources are designed to enhance the learning and research experience of students, faculty, and staff. Below is an overview of the various e-resources available at the IIST library:

a. **E-Journals**

E-journals in the IIST library closely mirror the structure of traditional print journals. They typically include:

1. Table of Contents: Listing the articles in each issue.
2. Volume/Issue Model: Many electronic journals still follow the traditional model of publishing in volumes and issues, though some now publish continuously without fixed issues.
3. The library subscribes to several prominent e-journals, providing access to up-to-date research across various disciplines.

b. **E-Books**

E-books, or electronic books, are digital versions of printed books that can be read on computers or other electronic devices such as e-readers and tablets. These e-books may contain text, images, or both. The IIST library offers a vast collection of e-books, particularly through the Delnet platform. These e-books are available for academic and research purposes and can be accessed remotely.

c. **Databases**

A database is a structured collection of data stored electronically. The IIST library provides access to numerous academic and research databases, which are crucial for efficient data retrieval and analysis. The Database Management System (DBMS) is used to manage these databases, allowing for the easy storage, entry, and retrieval of large amounts of information. The key databases available at the library are:

1. J-Gate: A popular portal for accessing online journals and research papers.
2. Delnet: Provides access to a variety of research databases and e-books.

Librarian
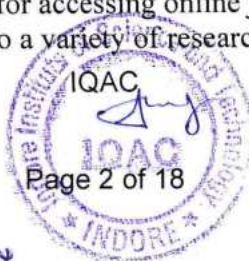

IQAC

Principal

Principal
Indore Institute of Science
and Technology, Indore

3. IEEE: A leading database for engineering and technology journals and articles.
4. MAT Online Journals: Offers access to journals focused on materials science, engineering, and technology. These databases offer rich content for research and academic projects, supporting disciplines like space science, engineering, and technology.

d. Remote Access Facilities

The IIST library also provides remote access to its e-resources, allowing faculty, staff, and students to access e-journals, e-books, and databases from locations outside the campus. This service is available through platforms such as J-Gate, Delnet, and MAT Online, ensuring that users can continue their research and studies regardless of the e-library /physical location.

e. Subscription Details

All the e-resources at the IIST library are subscribed to on an annual basis. The details of the subscriptions for the year 2023-2024, including the access to 108 printed journals and the online databases, are mentioned in this document. These subscriptions ensure that the users have access to the most current academic and research materials.

In conclusion, the IIST library offers a comprehensive range of electronic resources that support the academic and research needs of its community. With easy access to journals, books, databases, and remote services, the library plays a pivotal role in the institute's educational ecosystem.

3. e-Shodh Sindhu

e-ShodhSindhu
Consortium for Higher Education Electronic Resources

Resource Name: J-Gate

Brief Description:

J-Gate is an electronic gateway to global e-journal literature. Launched in 2001 by Informatics India Limited, J-Gate provides seamless access to millions of journal articles available online indexes from over 53,000 online journals including full-text access to around 29,000 journals. J-Gate also plans to support online subscription to journals, electronic document delivery, archiving and other related services. J-Gate Science and Technology platform indexes over 34,600 online journals including full-text access to around 18,800 journals. J-Gate Social Science and Humanities platform indexes over 18,500 online journals including full-text access to around 8,400 journals.

Negotiated Rates for 2024:

- Science & Technology Collections^ : INR 64,945.00
- Social Sciences and Humanities^^ : INR 59,533.00

GST Extra

^ Includes Engineering and Technology, Basic Sciences, Agri and Bio Sciences, Biomedical Sciences
^^ Social & Management Sciences, Arts & Humanities

4. Shodhganga Membership

Shodhganga is an Open Access Repository of full-text thesis submitted to universities in India. Membership is not required to browse, view, search and download theses available in Shodhganga. However, INFLIBNET signs MoUs with universities to facilitate submission of electronic version of thesis into Shodhganga and synopses/approved research proposals into Shodhgangotri. Our university also signs MoUs with INFLIBNET Centre on Shodhganga and provides access to anti-plagiarism software. Colleges are not eligible for this benefit but as we are affiliated to RGPV university and our university sign MoUs with INFLIBNET. (Details are available at http://shodhganga.inflibnet.ac.in).

AVAILABILITY OF DATABASES REPOSITORY OF THE LIBRARY

National Digital library of India: - The National Digital Library of India (NDLI) is a virtual repository of learning resources that is not just a repository with search/browse facilities but provides a host of services for the learner community. It is sponsored and mentored by the Ministry of Education, Government of India, through its National Mission on Education through Information and Communication Technology (NMEICT). The NDLI provides free access to many books in the Indian languages and English. Filtered and federated searching is employed to facilitate focused searching so that learners can find the right resource with the least effort and in minimum time. NDLI provides user group-specific services such as Examination Preparatory for School and College students and job aspirants. Services for Researchers and general learners are also provided. NDLI is designed to hold the content of any language and provides interface support for the 10 most widely used Indian languages. More than 60 types of learning resources are available - books, articles, manuscripts, video lectures, thesis, etc. Items are available in more than 400 languages. It is built to provide support for all academic levels including researchers and life-long learners, all disciplines, all popular forms of access devices, and differently abled learners. It is designed to enable people to learn and prepare from best practices from all over the world and to facilitate researchers to perform inter-linked exploration from multiple sources. It is developed, operated, and maintained by the Indian Institute of Technology Kharagpur.
