Summary

On 19th March 2024, an event was organized with the participation of 12 students at IIST, IIP and IIMR in Dazzle 2024. A rangoli competition without a specific theme allows participants to freely express their creativity and cultural heritage through the traditional art form of rangoli. Rangoli, originating from India, involves creating intricate designs using colored powders, rice flour, flower petals, or other materials. In this type of competition, participants have the freedom to design their rangolis based on their imagination, personal style, and traditional techniques. The absence of a theme encourages a diverse range of designs, each reflecting the individuality and cultural background of the artist.

Participants are typically given a designated space to create their rangolis within a specified time frame. Judging criteria often include creativity, originality, technical skill, symmetry, use of colors, and overall aesthetic appeal. Judges, often consisting of artists, cultural experts, or community members, evaluate the rangolis and award prizes to the winners.

Rangoli competitions without a theme provide participants with an opportunity to celebrate their cultural heritage, showcase their artistic talents, and engage with their community. Such events promote cultural exchange, appreciation for traditional art forms, and the spirit of creativity and unity.

Summary

On 19th March 2024, an event was organized with the participation of 12 students at IIST, IIP and IIMR in Dazzle 2024. There is no theme it is open for all to show their creativity. A drawing competition without a specific theme allows participants the freedom to explore their creativity without constraints. Artists are encouraged to showcase their skills and imagination through their drawings, using any medium or style of their choice. The absence of a theme allows for a diverse range of artworks, each reflecting the individuality and unique perspective of the artist.

Participants are given a set timeframe to create their drawings, which can vary depending on the competition's rules. Judging criteria typically focus on aspects such as creativity, originality, technical skill, composition, and overall impression. Judges may include professional artists, art educators, or experts in the field. Drawing competitions without a theme provide artists with a platform to express themselves freely, receive feedback, and gain exposure within the artistic community.

Overall, such competitions serve as a celebration of artistry and creativity, fostering a supportive environment for artists to share their passion for drawing and engage with like-minded individuals.

Logical Operators

There are following logical operators supported by C++ language.

Assume variable A holds 1 and variable B holds 0, then -

Operator	Description	Example
&&	Called Logical AND operator. If both the operands are non-zero, then condition becomes true.	(A && B) is false.
	Called Logical OR Operator. If any of the two operands is non-zero, then condition becomes true.	(A B) is true.
!	Called Logical NOT Operator. Use to reverses the logical state of its operand. If a condition is true, then Logical NOT operator will make false.	!(A && B) is true.

Bitwise Operators

Bitwise operator works on bits and perform bit-by-bit operation. The truth tables for &, |, and ^ are as follows -

p	q	p & q	p q	p ^ q
0	0	0	0	0
0	1	0	1	1
1	1	1	1	0
1	0	0	1	1

Assume if A = 60: and B = 13: now in binary format they will be as follows -

A = 0011 1100

B = 0000 1101

A & B = 0000 1100

A | B = 0011 1101

A ^ B = 0011 0001

~A = 1100 0011
