3. Outcomes:

The Aptitude Session produced several significant outcomes:

- Improved knowledge about Aptitude: Participants got the information on how to prepare for Aptitude tests.
- Enhanced Problem-Solving Abilities: The training sessions honed the students' ability to tackle complex problems systematically and logically.
- Positive Feedback: The participants expressed their satisfaction with the program, emphasizing its value in their job preparation.

4. Conclusion:

The workshop "Introduction to Aptitude and Reasoning" for first year (CS+IT) engineering students at Indore Institute of Science and Technology proved to be a significant success. The program not only enhanced students' aptitude skills but also boosted their confidence in facing job interviews and assessments conducted by MNCs. The positive feedback from participants highlights the effectiveness of such training programs in preparing students for the competitive job market.

Report- "Introduction to Aptitude and Reasoning"

Prepared by: Mr. Abhishek Bhatnagar

Date: 24th March 2023

Executive Summary:

This workshop conducted at Indore Institute of Science and Technology for first year (CS, IT) engineering students on 20.03.2023 aimed to enhance their aptitude skills and prepare them to excel in aptitude tests conducted by various multinational corporations (MNCs). The one-day training program was designed to equip the students with the necessary knowledge, strategies, and practice required to succeed in the competitive job market. This report outlines the objectives, activities, outcomes, and Conclusion.

1. Objectives:

The primary objectives of the Aptitude workshop were as follows:

- To provide an introduction of Aptitude and Reasoning to first year engineering students to improve their aptitude skills.
- To prepare students to excel in aptitude tests conducted by MNCs as a critical component of the hiring process.
- To instill problem-solving and analytical thinking skills that are highly valued by employers.

2. Sessions and Activities:

The training program spanned 1 day and included a mix of interactive classroom sessions, practice tests, and feedback sessions. Introduction of following topics were covered:

Concepts of Arithmetic and Reasoning.

Report- "Introduction to Aptitude and Reasoning"

Prepared by: Mr. Abhishek Bhatnagar

Date: 24th March 2023

Executive Summary:

This workshop conducted at Indore Institute of Science and Technology for first year (EC, AIML, IOT, CE, ME) engineering students on 21.03.2023 aimed to enhance their aptitude skills and prepare them to excel in aptitude tests conducted by various multinational corporations (MNCs). The one-day training program was designed to equip the students with the necessary knowledge, strategies, and practice required to succeed in the competitive job market. This report outlines the objectives, activities, outcomes, and Conclusion.

1. Objectives:

The primary objectives of the Aptitude workshop were as follows:

- To provide an introduction of Aptitude and Reasoning to first year engineering students to improve their aptitude skills.
- To prepare students to excel in aptitude tests conducted by MNCs as a critical component of the hiring process.
- To instill problem-solving and analytical thinking skills that are highly valued by employers.

2. Sessions and Activities:

The training program spanned 1 day and included a mix of interactive classroom sessions, practice tests, and feedback sessions. Introduction of following topics were covered:

Concepts of Arithmetic and Reasoning.

Indore Institute of Science and Technology

Approved by AICTE, New Delhi & Affiliated to RGPV, Bhopal

3. Outcomes:

The Aptitude Session produced several significant outcomes:

- **Improved knowledge about Aptitude:** Participants got the information on how to prepare for Aptitude tests.
- **Enhanced Problem-Solving Abilities:** The training sessions honed the students' ability to tackle complex problems systematically and logically.
- **Positive Feedback:** The participants expressed their satisfaction with the program, emphasizing its value in their job preparation.

4. Conclusion:

The workshop "Introduction to Aptitude and Reasoning" for first year (EC, AIML, IOT, CE, ME) engineering students at Indore Institute of Science and Technology proved to be a significant success. The program not only enhanced students' aptitude skills but also boosted their confidence in facing job interviews and assessments conducted by MNCs. The positive feedback from participants highlights the effectiveness of such training programs in preparing students for the competitive job market.

"Career Development Cell (CDC)" Report

13th Apr 2023

Three days training session was organized by CDC for first year students of IIST, resource person of the training was Ms. Shweta Bahrani. The training focused on enhancing participants' communication skills and personality development. The report summarizes the objectives of the training, the training methods used, and the outcomes achieved.

Objectives

Enhance Communication Skills: The primary objective of the training program was to improve participants' communication skills, including verbal and non-verbal communication, active listening, and effective presentation skills.

Foster Personality Development: The training also aimed to support participants in developing their personalities by focusing on areas such as self-confidence, emotional intelligence, adaptability, and interpersonal skills.

Training Methods

Workshops: The training program included interactive sessions where participants engaged in various activities, role-plays, and group discussions to practice and refine their communication skills. These sessions allowed participants to receive feedback from trainers and peers.

Presentations: Each participant was given the opportunity to deliver presentations on selected topics. This exercise aimed to improve their public speaking skills, boost their confidence, and enhance their ability to articulate ideas effectively.

Individual Coaching: In addition to group activities, these sessions provided personalized guidance, feedback, and suggestions for improvement.

Outcomes

Improved Communication Skills: Participants demonstrated noticeable improvement in their communication skills. They were able to express their ideas clearly, actively listen to others, and engage in effective two-way communication.

Enhanced Presentation Skills: Through practice and feedback, participants developed better presentation skills. They improved their ability to structure content, engage the audience, and deliver presentations with confidence.

Increased Self-Confidence: The training program helped participants build self-confidence by providing them with opportunities to practice and receive constructive feedback. As a result, participants showed increased poise and self-assurance in various situations.

Conclusion

The soft skills training program conducted by CDC successfully enhanced participants' communication skills and supported their personality development. Through interactive workshops, presentations, and individual coaching, participants improved their communication abilities, gained self-confidence, and developed essential interpersonal skills. The outcomes of the training program demonstrate its effectiveness in equipping participants with valuable soft skills that are crucial for personal and professional growth.

Skill Up Sessions Report-2023

Aptitude Training for Final Year Engineering Students

Prepared by: Abhishek Bhatnagar

Date: 16th August 2023

Executive Summary:

The Skill Up Sessions conducted at Indore Institute of Science and Technology for final year engineering students (Batch 2024) from 12th June '23 to 13th August '23 aimed to enhance their aptitude skills and prepare them to excel in aptitude tests conducted by various multinational corporations (MNCs). The 45-days training program was designed to equip the students with the necessary knowledge, strategies, and practice required to succeed in the competitive job market. This report outlines the objectives, activities, outcomes, and Conclusion.

1. Objectives:

The primary objectives of the Aptitude Skill Up Sessions were as follows:

- To provide a structured and comprehensive training program for final year engineering students to improve their aptitude skills.
- To prepare students to excel in aptitude tests conducted by MNCs as a critical component of the hiring process.
- To instill problem-solving and analytical thinking skills that are highly valued by employers.
- To boost the confidence and readiness of students for their job interviews.

2. Sessions and Activities:

The training program spanned 45 days and included a mix of interactive classroom sessions, practice tests, and feedback sessions. The following topics were covered:

Quantitative Aptitude: Concepts of mathematics and quantitative reasoning, including Percentage, Ratios, Time Speed Distance, Time Work, Average and Number System.

Logical Reasoning: Training in solving puzzles, critical thinking, and identifying patterns.

Mock Tests: Regularly scheduled mock aptitude tests to simulate real exam conditions.

Indore Institute of Science and Technology

Approved by AICTE, New Delhi & Affiliated to RGPV, Bhopal

3. Outcomes:

The Aptitude Skill Up Sessions produced several significant outcomes:

- **Improved Aptitude Skills:** Participants showed substantial improvement in their aptitude skills, as evident from their performance in mock tests and assessments.
- **Enhanced Problem-Solving Abilities:** The training sessions honed the students' ability to tackle complex problems systematically and logically.
- **Confidence Building:** The mock tests and feedback sessions helped students gain confidence in facing interviews and assessments.
- **Positive Feedback:** The participants expressed their satisfaction with the program, emphasizing its value in their job preparation.

4. Conclusion:

The Skill Up Sessions for final year engineering students at Indore Institute of Science and Technology proved to be a significant success. The program not only enhanced students' aptitude skills but also boosted their confidence in facing job interviews and assessments conducted by MNCs. The positive feedback from participants highlights the effectiveness of such training programs in preparing students for the competitive job market.

Workshop Report: "Honing Essential Soft Skills for Interview Success"

Date: February 20th to 22nd, 2023

Organized by: Career Development Cell (CDC), IIST

Resource Person: Jaya Singh

Objective:

The primary goal of the three-day workshop, featuring Jaya Singh, was to provide first-year students at IIST with a platform to enhance their essential soft skills, fortifying their capabilities to excel in interviews and professional interactions.

Workshop Overview:

The workshop covered a comprehensive range of soft skills crucial for career development. Attendees were exposed to interactive sessions, practical exercises, and expert insights aimed at refining their interpersonal, communication, and problem-solving abilities.

Day 1 Highlights:

The inaugural day commenced with an introduction to the importance of soft skills in the professional world. The trainer, shared valuable insights and anecdotes, setting the tone for the workshop. Attendees actively participated in ice-breaking activities to establish a collaborative learning environment.

Day 2 Highlights:

The focus on day two shifted to communication skills, both verbal and non-verbal. The workshop was on affective presentation techniques, active listening, and professional etiquette. Small group discussions allowed participants to apply newly acquired skills under the guidance of the resource person.

Day 3 Highlights:

The final day centered on practical application, the trainer took mock interview sessions designed to simulate real-world scenarios. Participants received personalized

Objective:

- To Create Solutions in Incident Handling
- Implement Cybersecurity Best Practices and Risk Management
- Identify and Implement Legal Ramifications
- Integrate Network Monitoring and Present Real-Time Solutions
- Understand Software Design and Secure Practices
- Impact Cybersecurity Risk in an Ethical, Social, and Professional Manner

Outcomes:

- Analyze and resolve security issues in networks and computer systems to secure an IT infrastructure.
- Design, develop, test and evaluate secure software.
- Develop policies and procedures to manage enterprise security risks.
- Evaluate and communicate the human role in security systems with an emphasis on ethics, social engineering vulnerabilities and training.
- Interpret and forensically investigate security incidents.

Subject: Permission to Conduct Expert Talk for IIIrd year CSI and IT students.

Respected Sir,

The Department of Computer Science and Engineering wants to conduct an Expert Talk on 21st Feb 2023. **Mr. Kaivalya Apte**, Staff Software Engineer at HubSpot, Berlin, Germany (headquartered in Boston US) to conduct an Expert talk on topic "**Sneak peek into real world software engineering**" in regards to how things work and how things don't work in the real world of software engineering. We believe this will be a very informative talk that many students will wish to attend.

Our students are the future of tomorrow, so they should have knowledge of how things are going in industries. How engineering is going to apply in the real world of software.

Summary:

Computer Science and Engineering department organized Expert training on “Sneak Peek into real world software engineering”. The Training has been taken by Mr. Kaivalya Apte. He gave training on application of Software Engineering in real world industry from scratch and he explains so many important concepts of different models, testing techniques. The new technologies are very demanding and have a great potential to accelerate the career of students. The main purpose of this training was to enable students to get detailed insights of industry and role of software engineering. This Training was very beneficial for students looking towards the industry point of view and to make decision about their career prospect in different role model. So that we cover the main tagline of our institute that is employability quotient and holistic development of students this kind of training proves that we work for the development of students to make industry ready.

"How to become a successful AI engineer"

Objectives and Course Outcomes

Course Description:

How become an AI engineer, you have to gear up fast to fact-check the numbers and data. This requires analytical thinking. You also have to put questions to the data analytics team to ascertain the feasibility of data and brainstorm with the key stakeholders.

Course Objectives:

- The objective of this Expert Lecture is to make it more understandable to the students, faculties and research scholars in the field of sentiment analysis using AI and deep learning approaches.

Course Outcomes:

On completion of this course, Students should be able to:

- Learn and understand the concepts of AI.
- Learn different AI approaches and also will learn to use different statistics.

About:-

Mr. Shivang Trivedi sir is a problem solver and has deep understanding of algorithms. He can build sound programming logic to solve real world problems. His sessions were very well received particularly his authority in the image recognition and pose detection was admired. He has built models that creatively track human poses. During the interactions, found him to be generative in solution development and expressing in a convincing manner. He is a quick learner and hence can flex in the newer domains too and can quickly provide remarkable results. He appears to have a knack in detailing pattern recognition and machine learning model intricacies in a easily understandable manner which engages audience in the training.

I was on the hunt to find a "superstar" in the field of ML and AI with a deep management background in finance and operations from a top notch school to embark on a very sophisticated project. It took me 6 months to find Shivang but it was worth the wait. Under his guidance and leadership we have created something that is absolutely groundbreaking. If you are looking for someone whom you can fully trust, is reliable, honest, self-starter, true to his word and most importantly capable

Detailed Summary

On

"Trends in on-Device Artificial Intelligence"

1. The expert lecture was delivered by "Dr. Ashutosh Mishra" on 28 November 2022 acknowledged the students.

2. The objective of this lecture is to educate the students of UG courses, about the use of AI in autonomous vehicles. The first autonomous vehicle came out in the year 2012. Successively the second and third autonomous vehicles came out in 2015 and 2018 respectively. Some of the research ramifications are end-to-end steering control, Sequel Smart Mobility Expo Smartphone App-based sharing services in an autonomous vehicle, 5G-based intelligent management server platform for commercial vehicles, and regular situations in autonomous vehicles. There are five different levels in autonomous vehicles starting from 0 to 5 where level 0 indicates no automation and level 5 indicates full automation.

Artificial Intelligence unlocks a world of intelligent, connected devices that can perceive reason and take intuitive actions based on awareness of the situation.

3. The expert delivered the session in online mode, but our students attended offline mode at auditoriums 1 and 2.

4. The event was coordinated by the faculty Mr. Amit Kumar and Mr. Nitin Kumar Chauhan.

5. Dr. Keshav Patidar, Principal IIST, and Dr. Ankit Jain, HOD IIST welcomed our guest speaker.

6. At the end, the doubt session was scheduled for students. The doubt session took around 15 minutes after the session.
