Approval letter

To,

The Principal

Indore Institute of Science and Technology, Indore

Subject: Proposal for One week training on "AI Product Development" from 16th to 22nd Dec 2022.

Respected sir,

Department of Information Technology is planning to organize a one week training cum certification program on AI Product Development for the students of B Tech 2nd Year (CSE, IT, AIML and EC) from 16th to 22nd December 2022 at 9:30 am to 3:30 pm. The expert is Mr Shaving Triwedi. It is our request to kindly allow us for the same.

For salutation of the guest, we request you to kindly provide:

1. Refreshment for 5 and lunch for 2 persons.

Put up for your kind approval.

Executive Summary

Shivang is an Entrepreneur and AI Consultant. He has his experience in Deep Learning, Algorithm Design and Software Project Management. He has founded multiple companies in the AI space namely mEinstein LLC, Codenscious Technologies Pvt Ltd and CTL Indore. Working with very senior people in the industry, he has successfully designed, developed and deployed complex AI Solutions in various industries like healthcare, logistics and Retail. Shivang is a graduate of Indian Institute of Technology Roorkee and has a keen interest in Teaching AI to people.

Key Expertise

- **Algorithm Designer**

Developing scalable software systems for solving real world computing problems.

- **Deep Learning Researcher**

Studying fundamental mathematical constructs behind deep neural networks for implementing in Computer Vision and Natural Language Processing.

- **Software Project Management**

Agile Development Master having rich experience of Training, Building and Managing Agile Teams specialised in development of Enterprise Software Applications

- **AI Consultant**

Architected & Delivered AI Powered Technology Solutions for complex Business Problems in Retail, Health Care, Quality Assurance and Logistics

Employment History

Managing Director at Codenscloud Technologies Pvt Ltd

2017 - Present

Codenscloud Technologies has a rich experience of building AI Enabled Enterprise Grade Web and Mobile based software applications for industry specific needs. Offering Cutting Edge Technology, High Standards of Design and Coding practices and Project Management Practices, we are a team of highly skilled software engineers, data scientists and project managers who thrive to take on challenging technological endeavors.

- AI and Deep Learning**

Artificial Intelligence, Machine Learning & Deep Learning being the core competency, the company has successfully completed numerous Computer Vision and NLP projects including an entire spectrum of Intelligent Image and Video Analytics and Cutting Edge Language Modelling Systems.

- Mobile First AI**

Our continuously evolving Mobile Based Real Time Intelligent Video Analytics Technology requires no server side costly GPU computation and makes the entire system much more scalable and cost effective. This includes mobile based State of the Art Human Pose Estimation and Object Recognition Pipelines streaming only the required meta data for business logics.

- AI on the EDGE**

On the Edge Computing Side, company have ready to use system infrastructure softwares ready for all major Edge platforms including NVIDIA Jetson, Intel Compute Sticks, Google Coral TPUs and we are continuously updated with the latest innovations.

- **AI in Retail Analytics**

AI Scalable Video Analytics Technology for Smart CCTV systems for customer behaviour analysis, pre sales-analytics, store management and security in retail.

Recommendations

"Shivang is a problem solver and has deep understanding of algorithms. He can build sound programming logic to solve real world problems. His sessions were very well received particularly his authority in the image recognition and pose detection was admired. He has built models that creatively tracks human poses. During the interactions, found him to be generative in solution development and expressing in a convincing manner. He is a quick learner and hence can flex in the newer domains too and can quickly provide remarkable results. He appears to have a knack in detailing pattern recognition and machine learning model intricacies in a easily understandable manner which engages audience in the training."

- Mouly BC
Senior Director & Head of Learning and Development at Cyient Ltd

"I was on the hunt to find a "superstar" in the field of ML and AI with a deep management background in finance and operations from a top notch school to embark on a very sophisticated project. It took me 6 months to find Shivang but it was worth the wait. Under his guidance and leadership we have created something that is absolutely groundbreaking. If you are looking for someone whom you can fully trust, is reliable, honest, self-starter, true to his word and most importantly capable - SHIVANG IS YOUR GO-TO GUY"

Summary/Report for Training on “AI Bases Product Development”

Title : AI Based Product Development

Date of Event : 16/12/2022 to 22/12/2022

Trainer : Mr. Shivang Trivedi

Coordinator : Ms. Shruti Sharma

Summary:

Information Technology department organized a training cum certification program on “AI Based Product Development” for 42 hours. The Training has been taken by Mr. Shivang Trivedi. He gave training on Machine Learning and Deep Learning techniques from scratch and he explains so many important concepts of EDA, PCA, basic models from training to testing the entire dataset. The technology is very demanding and has a great potential to accelerate the career of students. The main purpose of this training was to enable students to get detailed insights of AI with hands-on to some models. This Training was very beneficial for students looking towards the industry point of view and to make decision about their career prospect in AI product development. So that we cover the main tagline of our institute that is employability quotient and holistic development of students this kind of training proves that we work for the development of students to make industry ready.

“AI Based Product Development”
Objectives and Course Outcomes

Learning Objectives

The objective of the training is

- To understand the applications and demand of AI based projects.
- To be able to create/understand the code of python programming languages.
- To understand the technical knowledge of Data Science and Machine Learning models.
- To be able to enhance the competency level of students as per the industry requirements.

Course Outcomes

After completing this training, the student will be able to

- Appreciate the importance of AI in various domains.
- Apply competency towards the development of machine learning models.
- Understand a very broad and collective knowledge of applying different datasets from preprocessing to training and testing the models
- Apply the knowledge of python to develop ML models.
