Date of Event: 26/04/2021

Time: 02.00PM-4:30PM

No. of Participant: 51

Mode: Online

Organized by: CM Dept., under IPR Cell, IIST Indore

One Day workshop on, “Intellectual Property Rights - Patents & Designs Process”

Summary

On the occasion of IPR day a one day online workshop is organized by Department of Chemical Engineering under IPR Cell of IIST on 26/04/2021. The program started at 02.00 pm with the Saraswati vandana. Principal Dr. Keshav Patidar welcomes our lecture expert Ms. Pooja Maulikar & addressed the participants regarding basics of IPR. Faculty coordinator Dr. Samatha Singh addressed the participants about the benefits of patent in building a start-up, after this the stage was handed over to the session expert **Ms. Pooja Maulikar (Examiner of Patent & Design, RGNIPM)**. In first session Ms. Maulikar briefed the students about intellectual property rights and its importance in building a start-up, creating value proposition for customers and preventing third party infringement. She also said “Entrepreneurs would be well-served to remember that even if the occasional troll can game the system to harm a vulnerable young company, patents themselves are often quite valuable—if not critical—to a startup’s success.” The session ended after question answer session in which Ms. Pooja Maulikar answered all the queries from the participants. In the second session after a short break, Ms. Maulikar had started her expert talk on ‘Patents & Design Process’. In this session, she explained the importance of IP for Start-ups, Intellectual Property Rights, its types and the difference between a registered trademark and non-registered trademark. At the end of session, participants asked their queries with the expert. The vote of thanks was given by student coordinator Ms. Ankita Garg.
