Expert Lecture:

Our institute honored with the presence of "Dr. V. R Raghuveer" for an expert lecture on **"Entrepreneurship and Innovation"**. In his lecture he explained entrepreneurship a driving force behind economic growth in recent years. Some of the world's most popular products and everyday items were created by entrepreneurs. They started as simple ideas that needed a well-organized plan and funding to see it off toward success. There are wealthy business owners that started off with an idea and little or no money. It is a matter of studying your competition and willing to make mistakes in order to make your concept even better. Organization, planning, and use of unique resources in one's reach can make a difference in getting one idea off the ground. We have been experiencing a boom in the start-up culture for a while now. Everyone wants to solve a problem, be it economic or social. The vote of thanks was given by Mr. Shantanu Roy.
