Dear Contributors,

Education, in essence, should bring to the fore the inner and inherent potential of the student. Educational institute, therefore, has to distinguish itself by providing sound infrastructure for higher education to leverage knowledge and innovation. More so, since the society and the nation look up to these centres for fulfilment of their aspirations and expectations. Education, be it primary or higher, need to go beyond its scope of merely imparting information and skill. It is precisely here that educational institutes have to play a pivotal role. It is rightly said that the child is not vessel to be filled but a lamp to be lit. Besides proactively providing an environment conducive to foster and nurture the inherent potential of the students, the institute need to consciously promote an inquisitive spirit among the students. The students would then be able to get acquainted with latest and upcoming research and inventions in science and technology. Hence, the institute has the onus of providing a platform for overall development of ethical, moral and human aspects of the personality of the students. The teachers are to be epitome of all that is good and need to maintain a professional demeanour by embracing traits like honesty, integrity and sincerity. This would go long way in bringing about quantitative and qualitative expansion of the student personality. Let us, therefore, pledge ourselves to rebuilding our institution and thus live up to the expectations and the trust reposed in us. Let us make concerted and sincere efforts to restore the glory and eminence to this institute. Together we march ahead to achieve the excellence.

IIST is on the path of growth and development. Our goal is to impart futuristic technical education through dedicated well qualified faculty members and supporting staff.

At IIST, we enhance employability of our students by bridging the gap between industry and academia. We are providing training on latest technologies to our students through various SIG activities in each semester for all engineering streams. Our attitude of going beyond curriculum will surely position our students at the forefront in job placements.

We have made a remarkable progress still there is a long way to go ahead. I am sure that, with the active combined work of all our stake holders; we will be able to make our institute as center of excellence in technical education.
